

Customer Feedback – Natural Being Skincare www.naturalbeingskincare.com

Natural Being Range

"I love the ease of the products and the affordability" **Chelsea, 22, USA, www.naturalbeingskincare.com**

"Cannot say enough good things about your product range, I adore all of them and love the benefits they have brought to my skin. I have quickly become an avid fan." **Nicola, UK, www.naturalbeingskincare.com**

"Prior to using Natural Being products, I was using a prescription from the doctor. Once I started using Natural Being products, my skin cleared up and I could see and feel the difference. I love the products, their simplicity and the fresh scent." **Natural Being Skincare Challenge participant, USA, www.naturalbeingskincare.com**

Natural Being Manuka Honey Day Creams

"This is the first cream I have found in years that doesn't sting or make my face go red. It goes on really easily and is absorbed quickly and really helps with dryness. I am about to order my 5th bottle which is unheard of for me." **Helen, Steeple Claydon, www.mypure.co.uk**

"I have been incredibly satisfied with Natural Being skincare products ... especially the day lotion. My skin is incredibly sensitive and the lotion has helped to moisturize my skin without the greasy side effects I have found with other day lotions." **Lindsey, 22, USA, www.naturalbeingskincare.com**

"I love this product as I find difficult to buy a day cream that will not leave my face looking all shiny and oily. The manuka day cream absorbed easily into my face and neck leaving it noticeably smooth to the touch. This cream did not like some other creams I have used irritate my skin. This cream left my skin instantly feeling fresh and revived especially when my skin is feeling that extra bit dry." **R Harris, London, www.mypure.co.uk**

Natural Being Manuka Cleansers

"This is a fantastic product at a great price point, with a gentle fragrance, I have now been using this for several months, my skin feels wonderful. I suffer from eczema and have no problems with the whole range. The screw top isn't a problem for me & I think the fragrance is very natural smells exactly of manuka. I use a small amount of product & it does the job of removing make up & the tube usually lasts me just over 1 month." **Sarah, Surrey, [www. mypure.co.uk](http://www.mypure.co.uk)**

"This is the cheapest & best natural cleanser I have ever bought. My skin is slightly oily and I should really use a foaming cleanser but I find them too drying. This creamy cleanser is light and not too thick - more like a lotion. I tried the A'kin cleanser but I found it too rich for my skin. The tube size is also great - 100ml is max size for hand luggage on a plane, plus the screw cap means it doesn't accidentally open in my gym bag. Good all round everyday product!" **Anna Marie, London, [www. mypure.co.uk](http://www.mypure.co.uk)**

"I am delighted with this product. You only need a pea sized amount and a little water to make a beautiful lather. It thoroughly cleaned my skin without drying it. I can highly recommend this product for even the most sensitive skins like mine. This is a winner!" **Jacqueline, Lancs, [www. mypure.co.uk](http://www.mypure.co.uk)**

Natural Being Manuka Toning Gel

Perfect addition to the cleanser. The gel is light and delicately scented. My skin appears brighter after use and thoroughly clean. Thank you for a lovely product. I can highly recommend, even for sensitive skin like mine. Excellent value for money too!" **Jacqueline, Lancs, [www. mypure.co.uk](http://www.mypure.co.uk)**
